For this we know

ideals of this store.

—That things are right, to the extent that shopping here today / means shopping where every point (sometimes small, sometimes very large) that could be worked out to your advantage, has been.

In some instances these mean only quality, in some only style, in some only price, in some quality and style and price.

And Now That It Is Blanket Buying Time

We want you to know how things are done in this Blanket Store.

In the first place, you know what you are buying. We look upon this as a matter of common honesty, also of good business.

In the first place, you know what you are buying. We look upon this as a matter of common honesty, also of good business.

It would be rather a poor recommendation for the future, since you would discover the fact sooner or later.

Again, we have selected these Blankets after passing on many that we did not select. The process of elimination was effective until it resulted in the survival of the fittest. These are the fittest Blankets we know of at every given price.

There is no need of subterfuge in connection with their merits.

Their merits are intrinsic and lasting. One may buy Blankets here with the confidence that every effort of trained experts has been put forward to raise quality and lower price—the efforts have resulted in these Blankets.

Be guided accordingly.

The Fact That "Madame Irene" Corsets Are Favored By So Many Smart Women Has Its Significance.

We might tell and retell the merits of "Madame Irene" Corsets, with more or less success in convincing the individual, but the fact that so many women who are "up" on such matters favor the "Madame Irene" tells the whole story at once.

Asked why, these women would probably say that the lines of a "Madame Irene" Corset are those of the present-day fashion, and comfortable; the materials are beautiful; the trimmings neat and dainty; the whole effect one of grace and elegance.

But to go a bit farther into the why—"Madame Irene" Corsets are of Parisian descent. Madame Irene herself (the designer) spends a good portion—at different times—of her year in Paris. She learns what the Parisian style wizards are doing and what the Parisian corsetiere is doing, and brings this knowledge and the materials to America to make "Madame Irene" Corsets for American women. The result is that which usually follows the most painstaking effort, sometimes called genius.

Madame Irene Corsets Are Priced From \$5.00 to \$37.50

There are Brocades, Silk Batistes, Imported Coutils, Tricots. Silk Suedes and Elastic Corests (these last have come in for unusual praise by many eminent surgeons), in styles that belong distinctively to Madame Irene and the fall of 1913.

"The Successo" is the Madame Irene understudy. It is priced at \$2.75 to \$5.00. Made by the same people, who, believing in their styles, would not make corsets along other lines. The difference is a matter of material and finishing, and still there are "Successoa" in French Coutil, Silk Batiste, Suedine, Brocade and a new Linen Poplia.

Comfort O'er Night--Fleecy Night Gowns

New ones, which means that the patterns and colorings of the flannelettes are not what one is accustomed to finding.

A bit neater and more attractive, with outlined checks and stripes, in dainty blues and pinks; others all white. Also it is not necessary to choose the high neck style; her are those with round neck and yoke. Regular and extra sizes.

AN EXCELLENT PLAN.

AN EXCELLENT PLAN.

A unique and practical plan. Is that of the chamber of commerce of LaGrange to intensively develop territory within a radius of sixty miles of that city as being, strategically, the halfway point of traffic between the east and the isthmus of Panama. As docalled in yeslenday's Countitution, a banque will be given at LaGrange on the evening of November 6 to promote the idea. It is expected that the governors of Georgia state chamber of commercial and industrial representatives will be present. The project is given pertinence by the fact that the area in question, partly in Gegria and partly in Alabama, is one of the richest in the south. With the impetus to traffic following the opening of the canal, the location of this tract right in the line of travel should give it advantages not only from the agricultural, but also from the business stantipoint.

It is evident that Mr. Wilson has heretofore played a waiting same for three reasons: I. His anxiety to keep good fathir
with the world and the people of Mexico.

Jording this country in a war of pacification,
seeing that we are not yet through with the
upprofitable Philippine adventure, and that
the Mexican nut would be even harder to
crack. 3. His natural impoise not to interfere with such vastly important and constructive legislation as the currency Issue;
which would be almost surely overshadowed and delayed if we had to adopt hards
measures of these motives is a sufficient

that conditions in Mexico are rapidly resolving themselves into a vicious and endiess
cycle of bloodshed, misrule and irresponsibility, with the European powers clamoring
for an understanding of some sort, the administration will in all probability take decivity action by doing that which could not

For you I am a poet. In the night I scatter music mid a crowd of stars, I build great passionase cities with my singing
And paint with song the colors of the dawn.

But I am not like other men who sing; Their words are artful and their lips ablare. They are the singers of the world, but I— I am a singer only in my heart.

Not that I don't like June weather: I admit I like it fine: From the crops, just startin' growin', To the climbin' glory vine: From the glad birds all a-buildin. And the skies a rain-washed blue; I like June, an' I admit it. But I like the others, too.

Gentlemen:-

We think the advertising carried in your medium merits an unsolicited testimonial from us. Our classified advertisement in the "CONSTITUTION", which we have been using for several weeks, has produced most satisfactory results.

Swo things stand out paramount:- First, our classified advertisement in the "Constitution" has brought us inquiries and orders not only from every part of Georgia but from the entire South.

Second, the replies received have come from a better class of people than from any other classified advertisements we have used We have received orders from bankers, merchants, professional men, men of character and business experience.

The results obtained from the use of your classified columns are highly satisfactory and are not a mera "happenstance."

The expense associated with advertising of this kind is of secondary importance in comparison with the good results obtained, as we regard it. This is given for your information and disposition.

Very truly yours,
